You know I feel you're swimming inside me deep
blindly
Should I help you if you flounder
But I know that you seem fall
You know I feel you're dewy dewberry ladybird
And should I tell you why it seems that?
Since you glance in my eyes
Underwater is your blooming love to me
You are breakwaters for wave of life
Touch my lips and hear the floating simphony
You are breakwaters for wave of life
You're dewy my girl dewberry ladybird
Dip inside me, damp-proof lady
You know I feel you're swimming inside me deep
blindly
