Baby, hear me when I tell you that I love you You give me reasons to be always thinking of you Day or night, night or day, it doesn't matter You give me hope, you got me dreaming of forever

We will follow the sun together Will this love of ours last us forever Who knows but until that day comes We will follow the sun

Baby, hear me when I tell you that I need you And I'm not saying this only just to please you You and me together, baby, that's where it's at It's the way that I feel, it's as simple as that

We will follow the sun together
Will this love of ours last us forever
Who knows but until that day comes
We will follow the sun

We will follow the sun together Will this love of ours last us forever Who knows but until that day comes We will follow the sun

La, la, la, la, la, la, la Faith is just a sunrise away La, la, la, la, la, la, la

I love you more, my baby With every new day He loves me, he loves me, yeah

We will follow the sun together Will this love of ours last us forever Who knows but until that day comes We will follow the sun

We will follow the sun together
Will this love of ours last us forever
Who knows but until that day comes
We will follow the sun
