I held it back, held all my despise back! You try to  
attract my attention/ Make me feel so shocked/ Not the  
way you imagined/I don't care about your bloody shots/  
It's you who makes me pissed off with your selfish  
goals/ Watching the tragedy, ignoring the pain, Your  
camera is on, but I can't call you brave/ You're there in  
the name of informing/ but we know that you're a fake/  
Nothing more behind your stories/ Just the power,  
money and fame/ Take your fuckin' prizes and get to a  
new place/ Still so much ahead of you/ More hunger,  
mass graves / You're a burnout - You never feel  
ashamed/ You're a burnout - I would spit in your face/  
You're a burnout - Who's gonna give you a hand?  
You're a burnout - Chasing sensation again/ You're a  
burnout - I can't get used to your kind/ You're a burnout  
- I won't stand by your side
