Blacklung coat and your little crown  
That's the crown that you get for falling down  
Hey baby lemme look in your eyes  
I see you standing in a weird red light  
You pump and grind that I call my head  
The suck-milk nebula I use instead  
The suck cream-clot and the sweet milk udder  
The weird red light that pulls me under  
Hey hey hey some up my stars  
Slut me open and suck my scars  
Yah now I'm loaded yah now I'm loaded

Blacklung coat and your little crown  
That's the crown that you get when you fall down  
Hey baby won't you wave goodbye  
Cause you go up the fucking weird red light  
The rotten-sun spits on your raw hide  
Cause your the test the sun of a suicide  
He only laughs when you try to to  
Rat poison daughter of a suicide

Slut me and your gonna see my scars  
Open your eyes when I come down  
And I'm loaded yah now I'm loaded  
Don't blush when I rip you open  
Don't blush when I rip you open  
Hey baby lemme look in your eyes  
Cause you go off into your weird red light

The pump and grind that I call my head  
The suck-milk nebula I use instead  
The sweet cream-clot and the suck milk udder  
The weird red light that pulls me under  
You open and suck my scars you better  
Open your eyes when I come down  
Yah now I'm loaded I just get loaded I just get loaded  
I just get loaded hey now I'm loaded so am I so am I  
And I I just got I just got I just get I just get I just get  
loaded  
I just get loaded The see the sun no
