"Goodnight Texas"

Visit "[Goodnight Texas](#)" on MotoLyrics.com

Turn your eyes ahead
The wind against our backs to blame
Leave your bright lights set
Cause late night roads all look the same
Medians and yellow lines
Will take us back, will kill the time
And when those city lights just fade away
Goodnight Texas
I've had quite enough of you
Goodnight Texas
Think of all the time I blew
And if you think I'm coming back
Then you haven't got a clue
Goodnight Texas
Find your way up north
Cause everyone's got a dream to chase
Find a different course

Cause late night roads all look the same
A steady beat and melody
Will make us who we want to be
And when those city lights just fade away
Goodnight Texas
I've had quite enough of you
Goodnight Texas
Think of all the time I blew
And if you think I'm coming back
Then you haven't got a clue
Goodnight Texas
See your name in city lights
Your home is nowhere in our sight
Thoughts of what there always was
Brings regrets just because
