Take another shot at me and
See what I'll turn out to be
'Cause I'm not giving up
There's no such luck

I don't need a getaway
An easy out, another day
You've not got the best of me
Wait and see

The situations more complex
And I don't know what might come next
But I've got nothing else to lose

Can't you see that I'm not backing down?
You should know this by now, know this by now
It's easier the second time around
You should know this by now, know this by now

You know I've heard this all before
But I keep coming back for more
'Cause love can't live long bound
You'll come around

Fantasies are bittersweet and
I cannot admit defeat
To open ended lies
Don't be surprised

The situations more complex
And I don't know what might come next
But I've got nothing left to lose

Can't you see that I'm not backing down?
You should know this by now, know this by now
It's easier the second time around
You should know this by now, know this by now

You'll never need another thing
When there's nothing left to lose
You'll never need another thing

Can't you see that I'm not backing down?
You should know this by now, know this by now
It's easier the second time around
You should know this by now, know this by now

Can't you see that I'm not backing down?
You should know this by now, know this by now
It's easier the second time around
You should know this by now, know this by now

Know this by now, know this by now
Know this by now that I'm not backing down
