One cold and sad affair
take my heart and leave it there
I'm gonna feel this way forever
Never thought that I'd be free
Now your faith is changing me
Carrie Carrie

Now only time will tell
It's a dream I know so well
You always try so hard to please me
Only thing I know for sure
I couldn't love you anymore
Carrie Carrie

Waited so long no one to share (why did you keep me
waiting)
Could you belong to someone
Show you care I'll be there
Carrie is it more than a dream this time (more than a
dream)
Carrie can I tell everyone you're mine (tell them you're
mine)
I will never be the same
And now you made me live again
Carrie is it more than a dream this time
Carrie is it more than a dream this time

My heart is open wide
You know how I feel inside
You see my sad old days are over
Never need to hide away
Gettin' stronger everyday Carrie Carrie

chorus

Carrie can I tell everyone your mine (tell them you're
mine)
Carrie is it more than a dream this time (more than a
dream)
