Don't run and hide from the people  
Don't run and hide them all  
Don't run and hide now, 'cause you're only hurting  
yourself

Ask me why and I'll tell you things that you never heard  
now  
'Bout yourself what they're saying, I know that it will  
hurt you  
Please fight back, it's important how you accept their  
lies now  
If you run, you condemn yourself and they'll realize  
now

Then you'll be hurtin' me  
'Cause I'm left on my own and I've got them to face

Don't run and hide from the people  
Don't run and hide them all  
Don't run and hide now, 'cause you're only hurting  
yourself

[Break]

Stay with me you'll convince them all that it isn't true  
now  
Be with me and we'll prove just how strong our love can  
be now  
Please fight back, it's important how you accept their  
lies now  
If you run, you condemn yourself and they'll realize  
now

Then you'll be hurtin' me  
'Cause I'm left on my own and I've got them to face

Don't run and hide from the people  
Don't run and hide them all  
Don't run and hide now, 'cause you're only hurting  
yourself

Don't run and hide from the people

Don't run and hide from the people  
Don't run and hide from the people  
Don't run and hide from the people
