I keep on thinkin' about the things that make me cry  
I keep on thinkin' about the things that make me die  
But everythin' is sunshine when you hold my hand

If everybody knew you the way I do  
People wouldn't wear frowns the way they do  
'Cos everythin' is sunshine when you hold my hand

Oh no, how could it be?  
You effect me  
Just by holdin' my hand  
By holdin' my hand

Oh no, how could it be?  
You effect me  
Just by holdin' my hand  
By holdin' my hand

If everybody knew you the way I do  
People wouldn't wear frowns the way they do  
'Cos everythin' is sunshine  
Everythin' is sunshine  
Everythin' is sunshine
