Back off, baby
Don't lean too hard
I'll come 'round when I'm ready
I ain't finished my playing 'round
Don't want to go steady

You gotta give me time
Give me time, give me time
You gotta give me time
Give me time, give me time

The feeling in me ain't the same as yours
I'm still first-class flying
You've gotta wait till I reach the ground
No need to be lying

Give me time
Give me time, give me time
Give me time
Give me time, give me time
To think it over

Don't try so hard
Don't spoil your chance
Don't try so hard
Don't spoil your chance

Back off, baby
Don't lean too hard
I'll come 'round when I'm ready
I ain't finished my playing 'round
Don't want to go steady

Gotta give me time
Give me time, give me time
You gotta give me time
Give me time, give me time
To think it over

Give me time
Give me time, give me time
You gotta give me time

Give me time, give me time

Give me time
Give me time, give me time
You gotta give me time
Give me time, give me time
