(Nash / Clarke)

Hey, hey just what's with me  
You've been lookin' far too good to me  
I know our love could never be now

My heart it keeps on beatin'  
I know that you've been cheatin'  
I know our love could never be now

I tried how I tried to keep you satisfied  
By me oh gee, you go from me and how I cried

Hey, hey just what's with me  
You've been lookin' far too good to me  
I know our love could never be now

[Break]

I tried how I tried to keep you satisfied  
By me oh gee, you go from me and how I cried

Hey, hey just what's with me  
You've been lookin' far too good to me  
I know our love could never be now

My heart it keeps on beatin'  
I know that you've been cheatin'  
I know our love could never be now  
I know our love could never be now
