(ransford)
I, I've been wrong before
But I know for sure
That I saw you last night
Out with another guy
It nearly made me cry
So I'm telling your girl

Stand by me my love
And I'll give you anything you want anytime you want
So stand by me my love
And I'll give you everything
And I'll give you everything

Break

Stand by me my love
And I'll give you anything you want anytime you want
So stand by me my love

And I'll give you everything
And I'll give you everything

I, I've been wrong before
But I know for sure
That I saw you last night
Out with another guy
It nearly made me cry
So I'm telling your girl

Cry
So I'm telling you girl
Cry
So I'm telling you girl
Cry
