Leave me, if it gives you satisfaction  
Slander my name all over the place  
Don't you have an inclination?  
You're gonna ruin a reputation, leave me

Tell me, now I've got you in the corner  
Won't you admit you've been telling me lies?  
I don't care about you  
I'll get along without, just leave me

It's so hard to please you, yeah  
(Hard to please)  
Tease you  
(Hard to tease)

Leave me, I don't ever want you near me  
Pack all your things and get out of my sight  
Your love was made of sand  
I've had all I can stand, leave me

It's so hard to please you, yeah  
(Hard to please)  
Tease you  
(Hard to tease)

Leave me, I don't ever want you near me  
Pack all your things and get out of my sight  
Your love was made of sand  
I've had all I can stand, leave me

You've got to leave me, baby  
Come on, now  
You've got to leave me, baby
