Louise

Coming on strong' can't be too long

Gotta get what my body needs

It needs Louise

Louise

Gonna break my heart, gotta make a start

Gotta get it together with Louise

Ooh Louise

Queen in blue jeans,

Boppin' at the hop,

Alive with the jive

Rollin' with the rock

Louise

Baby gonna move like lightning

Don't blink your eye

The speed I'm gonna do is frightening

Everybody move on over

I'm electrified

The speed's comin' through like a nova

Verse 1

Verse 2

Verse 3

Sparks are gonna fly igniting

Mr Dynamite I'm burnin' up the night

To light ya

Get ready for the big explosion

Call in the reserves there's gonna be a chain reaction
