Love is the thing
It always comes back to love
In the end
Love is the thing
That brings you closer to a friend
In the end

Love, love, love

Love takes you back
To the first love you had
Rememberin'
They say you can't forget
Your first taste of love
Memories

Love, love, love

Love is the thing
It always comes back to love
Don't try pretend
Love is the thing
That brings you closer to a friend
Don't try pretend

Love is the thing
It always comes back to love
In the end
Love is the thing
That brings you closer to a friend
In the end
