Follow me, follow, see what you see  
I'll take somewhere where you've never been  
High on a mountain, deep down in the sea  
To faraway lands, you can travel with me

I'm Pegasus, the flying horse  
I'm Pegasus, the flying horse

Ride on my back and hold onto my wings  
I'll take you by night to a time-leaping dream  
Time has no value where we're going to  
People are happy there, they're never blue

I'm Pegasus, the flying horse  
I'm Pegasus, the flying horse

This can only happen to you  
If you keep our secret  
Don't tell anyone  
About our magic horse

You can go where you want  
I can take you anywhere  
Because I'm Pegasus, the flying horse  
I'm Pegasus, the flying horse

I'm Pegasus, the flying horse  
I'm Pegasus, the flying horse

Follow me, follow, see what you see  
I'll take somewhere where you've never been  
High on a mountain, deep down in the sea  
To faraway lands, you can travel with me

I'm Pegasus, the flying horse  
I'm Pegasus, the flying horse  
I'm Pegasus, the flying horse
