"Promised Land"

Visit "[Promised Land](#)" on MotoLyrics.com

Where, where, where

Where, where is the promised land
Where, where is the promised land

It can't be found in Vietnam
It can't be where the eagle has landed
If we want peace for every man
We've gotta make the world demand it

Now I see the flag is flying
We've got to help them stop the dying
We must bring back the soldier boys
We mustn't let them die for nothing

War's a better game
When played with toys
Let's change the game

And let's start loving

Soldiers never fight alone
There's just as much
Fighting going on at home

Protests, violence, marches
It's all going on at home
Bring them all back home

Bring them all back home
Bring them all back home
Bring them all back home
Bring them all back home
