

Hollies "We're Alive"

Visit "[We're Alive](#)" on MotoLyrics.com

Feeling free across the ocean
We go sailing on an on into the sunshine
On our way life is so good to us now
Feeling good, feeling free, we're alive

Blue skies above, everything's right
As we're going on our way, future looks bright
You and me together at last
Feeling good, feeling free, we're alive

Lovely feeling the wind blows
Through your hair
As we're sailing through life
Without a care

Look around and feel the freedom
All around us, it is ours just for the taking
Nearer now to the island we go
Feeling good, feeling free, we're alive

Lovely feeling the wind blows
Through your hair
As we're sailing through life
Without a care

Faster now, across the surface
Of the water, keep on head
All life will catch up
Everyone would like to feel like we do

Feeling good, feeling free, we're alive
Feeling good, feeling free, we're alive
Feeling good, feeling free, we're alive
