[Verse 1]

I just can't live
Without her eyes
The way she holds me tight and
Her reassuring smile
She might not know
How much she's worth to me
If I could make one last request
She'd be with me for eternity

[CHORUS]

All of the long nights we were alone
Laying in our own beds talking on the phone
All of the people in the world can't suppress how I feel
You mean everything to me
You're all I need

[Verse 2]

If anyone ever puts you down
I will be right by your side
To wipe the tears from your face
If they made you cry
I will always remember
How you put up with me
Even when the days got bad
You always made me happy

[CHORUS]

All of the long nights we were alone
Laying in our own beds talking on the phone
All of the people in the world can't suppress how I feel
You mean everything to me
You're all I need

[BRIDGE]

[CHORUS]

All of the long nights we were alone
Laying in our own beds talking on the phone
All of the people in the world can't suppress how I feel
You mean everything to me
You're all I need
(all of the long nights

We were alone
Laying in our own beds
Talking on the phone)
You're all I need
(all of the people in the world
Can't suppress how I feel)
Everything to me
Is all you mean
