Now I've come to cry
Shed your skin to rest my naked eye
And criticize

All that I implore
Seems to be one foot outside that door
Coming between me and waking

Underneath the corset of your mystery
Piece by piece undress you from your history
I'm sleeping with seclusion in sweet disarray

You can go heavy on me
And I will not weigh you down, down, down
You can be steady and clean, I can take it
Heavy on me and I will not weigh you down, no

Born unto this pride
Silence is something you can't hide
You can't deny us

Nothing has been said
Yet so many words have filled my head
And now they completely surround me

Tie the lines of honest conductivity
Caught between the center of our gravity
I don't have that much time to burn anymore

You can go heavy on me
And I will not weigh you down, down, down
You can be steady and clean and I can take it
Heavy on me and I will not weigh you down

Underneath the corset of your mystery
Piece by piece undress you from your history
I'm sleeping with seclusion in sweet disarray

You can go heavy on me
And I will not weigh you down, down, down
You can be steady and clean, I can take it
Heavy on me and I will not weigh you down, no

And I will not weigh you down
