Now I have the microphone, and theres something you  
should know

I took a hit but that shit doesn't phase me  
Mercury in retrograde,  
Just gotta finish up the week and get paid  
Like blood for the honey, yeah.

Ill make it, Ill make it, and there is no mistaking  
Just walk past, cover my tracks  
Its as simple as that, Im not looking back  
Im wakin' Im wakin' that death machine is breaking  
You know you can't hold me for ransom  
Gonna jump, jump.

{CHORUS}

I wanna get real high, get real low  
Anyone and everyone you know  
Turn up the radio  
You gotta move in time  
Fast or slow  
Just a little spark to light the fuse  
We got nothing to lose.

Gonna break out of that box  
With our diamond studded locks, uh-huh  
And you won't recognize me.  
Turn it up in Hollywood land  
Lay my ass down in the hot sand  
But the sun doesn't burn me, no.

I'll make it, I'll make it, and there is no mistaking  
Just walk past, cover my tracks  
It's as simple as that, I'm not looking back  
Im wakin' Im wakin' that death machine is breaking  
You know you can't hold me for ransom  
Gonna jump, jump.

{CHORUS}

I wanna get real high, get real low

Anyone and everyone you know  
Turn up the radio

You gotta move in time  
Fast or slow  
Just a little spark to light the fuse  
We got nothing to lose.

I'll make it, I'll make it, and there is no mistaking  
Just walk past, cover my tracks  
It's as simple as that, I'm not looking back  
I wanna get real high, get real low  
Just a little spark to light the fuse  
We got nothing to lose.

--Instrumental--  
(I was sleeping,)

(Without dreaming,)

You can't hold me anymore--

I wanna get real high, get real low  
Anyone and everyone you know  
Turn up the radio  
You gotta move in time  
Fast or slow  
Just a little spark to light the fuse  
We got nothing to lose.

I'll make it, I'll make it, and there is no mistaking  
Just walk past, cover my tracks  
It's as simple as that, I'm not looking back  
I wanna get real high, get real low  
Just a little spark to light the fuse  
We got nothing to lose.
