Something in a song
Showed us we belong
I am falling and there's nothing I can do
It's come to here and now
Don't matter why or how
My heart is dancing
And it's all because of you
I can't believe it's true

I always dreamed of it
I always wanted it
I always hoped that it
Would be just like this
Just like this
I never thought I would
I never had it so good
I never knew I could
Have it just like this
Just like this
Just like this

Something in your eyes
Made me realize
What I'm feeling
And I just can't get enough
You opened up the door
To everything and more
The world is spinning
And it's all because of... you
I can't believe it's true

I always dreamed of it
I always wanted it
I always hoped that it
Would be just like this
Just like this
I never thought I would
I never had it so good
I never knew I could
Have it just like this
Just like this

Just like this

Just like this
Just like this

I always dreamed of it
I always wanted it
I always hoped that it
Would be just like this
Just like this
I never thought I would
I never had it so good
I never knew I could
Have it just like this
Just like this
Just like this
