Im just looking for someone to have a good time with
Im just looking for someone to have a good time with
If you find me interesting, you wont be disappointed
Im very open-minded in all the right places
Go ahead and make that move
Satisfaction guaranteed
I don't wanna hurt you
I just want to love you
Im just looking for someone to have a good time with
Im just looking for someone to have a good time with
If you wanna kick it with me
Im going to the beach
If you wanna be with me, please call
Go ahead and make that move
Satisfaction guaranteed
I don't wanna hurt you
I just wanna love you
Im just looking for someone to have a good time with
Im just looking for someone to have a good time with
Romantically helpless, romantically helpless
Im very interesting, you wont be disappointed
Im very open-minded in all the right places
Go ahead and make that move
Satisfaction guaranteed
I don't don't wanna hurt you
I just wanna love you
Im just looking for someone to have a good time with
Im just looking for someone to have a good time with
Im just looking for someone to have a good time with
Im just looking for someone to have a good time with
