And I don't want
To wait anymore
Don't even know
What I'm waiting for
You have become grey and unkind
Unable to make up your mind
What you don't know
What you can't see
Is under your skin
You are in love with me
Da da da da da daa
And I don't feel
Anything more
Than what I felt the night before
And I have become static and blue
Why it's ugly I know
But baby it's true
When will ya know, when will you see
That under your skin you are in love with me
Da da da da da da daa da da da uh
Ba da da da da da da da da daa
Badada badada badada
