(Chris Waters - George Teren - Holly Dunn)

I don't need some guy telling me how good his love is
gonna be
More times than not he's selling me something he ain't
got
No temporary Romeos those he's gonna put me in his
show
I've seen enough of them to know what I really want.

The real deal real deal
Who says what he means means what he says
Cares about how I feel
The genuine kinda hard to find real deal.

He'll never make me wonder if he's gonna keep his
promises
Once he's easy to love that's how it is forever more
And when he looks me in the eye I'll know what's going
on inside
I'm holdin' out until I find what I'm looking for.

The real deal real deal
Who says what he means means what he says
Cares about how I feel
The genuine kinda hard to find real deal.

That's what I'm looking for.

The real deal real deal
Who says what he means means what he says
Cares about how I feel
The genuine kinda hard to find real deal.

The genuine kinda hard to find real deal...
