I gave you less and left you poor
You should never give more than you can afford
I feel so bad I had to go
But I came back to pay what I owe

Any way you like it
Any way you choose
Any day you just have to say
Anytime you do

It's no lie, it's my mistake
I make no secret - I'm to blame
I feel so low for what I did
And I came back to pay for everything

Any way you like it
Any way you choose
Any day you just have to say
Anytime you do

Any way you like it
Any way you choose
Any way you just have to say
Anytime you do
