It's cold yup!  
First I came home  
And next thing you know  
A blanket of snow cancelled a show  
Now I'm chillin  
I can't let go I got a cast that fillin  
Hands to the ceilin but I know I can't be hold up in this  
spot for long  
With a beat this hot and not drop the song  
With pajama pants on  
A chance to make  
With a old school headcall a classic take  
Track eight to the new jacks and that's the breaks  
I hate fakes with a passion can't get enough of  
everlastin  
Basement assassin  
Chasin a dragon  
Not cause I'm asian  
More cause we need more fire  
To warm these nuts  
Keep them toasted cold might shiver them up  
And a snow plow truck aint givin a fuck  
Well dig ourselves out of the hood  
With mind over matter but the matter came first  
Brown show you how the thang works  
Taken them to church like came but were seeing his  
dreams in reverse  
Say we need more self of steam  
I say we need free first  
Water for the deep sea thirst  
Hotta than a philippine street I make the heat worst  
Callin out the sun  
Wont see a penny outta bailout fund  
So I gotta keep it current or I'm laid out gun  
Buildin up a fort just in case out front  
Screen faids out credits in the start  
Throwed out now in the lenin and the marks  
Veterans of war ways in our backyards now  
No surprise kids it's kind of swords wow  
And I came from an ile  
Never seen a blizzard so the weather stay foul

But a group on as I got grown Blue Scholars got started  
I was sleepin on frutons at home  
Can't complain my people starvin  
That's the reason why I don't rock no crystaleen carvin  
And my folks keep callin  
And the snow keeps fallin  
And 09 keep marchin  
Sincerely geo sabzi gotta get that coffee  
Follow me  
LETS GO!
