Wherever you were  
When I needed a friend  
Wherever you were  
When it looked like the end

Well, you can go there now  
Yeah you can go there now  
Because I don't need  
I don't need you no how

Wherever you were  
When the tears wouldn't dry  
Wherever you were  
When my friends stopped comin' by

Well, you can go there now  
Yeah you can go there now  
Because I don't need  
I don't need you no how

Wherever you were  
When I needed a friend  
Wherever you were  
When it looked like the end

Well, you can go there now  
Yeah you can go there now  
Because I don't need  
I don't need you no how
