What if I'm not ready
To play the what if game?
What if we're all takers?
I'm losing my face

What if she's a ghost now?
Does she know your name?
She's never seen him smiling
I'm losing my face

Take me with you
My ghost is coming home real soon
Take me with you
My ghost is coming come real soon
Take me with you
My ghost

What if she's not steady?
She plays the players game
What if we're all taken?
I'm losing my face
