Twist

(H. Korpi, M. Johansson, T. Nichols)

Ice and a twist  
And a cigarette  
Starts a night I won't forget  
Drinks and a dance and a word or two  
Share the time with someone new

Twist

Twist

You're locked in your land  
On a private jet  
The devil is at work out there  
Tell me the time  
On the altitude  
I'm racing now I'm in the mood

You're the kind that's always  
Gotta round the red lights  
Too much is not enough for you  
You bet your life on strangle  
Lend them maybe black jack  
I'm playing my cards so are you through?

Just wanna dance all night  
I'm feeling all right  
The music's out of sight  
If you tell me what you like  
Just wanna dance all night  
And touch your body right  
The music's out of sight  
And we can bump into the light

Dice and a dessert is where we are  
Babies could make you a star  
Hope and despair  
Come back each tear  
Elvis is in town all year

You're the kind that's always  
Gotta round the red lights (Oh yeah)  
Too much is not enough for you  
You bet your life on strangle  
Lend them maybe black jack  
I'm playing my cards so are you through?

Just wanna dance all night  
I'm feeling all right  
The music's out of sight  
If you tell me what you like  
Just wanna dance all night  
And touch your body right  
The music's out of sight  
And we can bump into the light

Just wanna dance all night with you  
The music's out of sight that's true  
Just wanna dance all night with you  
The music's out of sight that's true

Just wanna dance all night  
(Just wanna dance all night with you)  
I'm feeling all right  
The music's out of sight  
If you tell me what you like  
Just wanna dance all night  
(Just wanna dance all night with you)  
And touch your body right  
The music's out of sight  
And we can bump into the light

Twist  
Just wanna dance all night  
Just wanna dance all night  
(Do you wanna twist)  
Just wanna dance all night with you  
The music's out of sight that's true  
(Do you wanna twist)  
Just wanna dance all night with you  
The music's out of sight that's true  
(Do you wanna twist)
