Turn it on
The noise starts here
It smells like wine but it's healthy water
I don't know how you call me but it makes me shy
When you give your body I can't deny (it)

Chorus:
Am I doing it in the time I have to kill
Is this feeling breaking all the life I built
Am I burning so hard, water can't save me
Am I giving too much passion, love addict
She wears short dresses to catch attention
And she knows how to cause attraction
Everytime I'm falling right into her arms
It's worst than hell, but it makes me shine

Bridge:
I drink and eat as much as I can do
You call her "queen" and she's a demon

Chorus
