

Hollywood Undead "Been To Hell"

Visit "[Been To Hell](#)" on MotoLyrics.com

Welcome to a city that'll bring you to your knees
It'll make you beg for more, until you can't even
breathe
Your blindfold is on tight, but you like what you see
So follow me into the night, 'cause I got just what you
need

We're all rollin' down the boulevard, full of pimps and
sharks
It's a motherfuckin' riot we've been dying to start
You better grab a hold 'cause now you know you're
falling apart
You thought these streets were paved in gold
But they're dirty and dark

Been to hell, I can show you the devil
Down you fell, can't hold yourself together
Soul to sell, down here you live forever
Welcome to a world where dreams become nightmares

Been to hell, I can show you the devil
Down you fell, can't hold yourself together
Soul to sell, down here you live forever
Welcome to a world where dreams become nightmares

Welcome, welcome

In the belly of the best, I'm a wolf amongst sheep
At the bottom of the hill, but at the top of the street
Above the boulevard, schoolyard, victim of deceit
And you're running hard, but this wolf is always at your
feet

And you've seen it all before, but the wolf's outside
your door
And you're old enough to run, you ain't hiding anymore
Another victim of the star spangled banner of the
street
Now you're in the world of the wolves
And we welcome all you sheep

Been to hell, I can show you the devil

Down you fell, can't hold yourself together
Soul to sell, down here you live forever
Welcome to a world where dreams become nightmares

Been to hell, I can show you the devil
Down you fell, can't hold yourself together
Soul to sell, down here you live forever
Welcome to a world where dreams become nightmares

Welcome, welcome

You need to wake up and face it so you can taste my
reality
Now you're stuck in this place you hate
And you came here so happily
Then it made you lose your faith
And that's what fucked with your sanity
Say goodbye to your soul and say hello to your vanity

Hollywood is your friend, and the Undead are your
family
We'll take you to the edge, and turn your regret into
agony
And I'll never let you go, 'cause I know you'll come back
to me
I'm the reason you came here, I'm the American
Tragedy

Been to hell, I can show you the devil
Down you fell, can't hold yourself together
Soul to sell, down here you live forever
Welcome to a world where dreams become nightmares

Been to hell, I can show you the devil
Down you fell, can't hold yourself together
Soul to sell, down here you live forever
Welcome to a world where dreams become nightmares

Welcome, welcome, welcome
Welcome to a world where dreams become nightmares
Welcome
