I hear what you're saying when you shout in my ear  
Get straight to the point now...  
Better make yourself clear  
You've kicked me out before  
But I always come back  
You take it to the limit...  
Now you're ready to crack

You always take more than nothin' baby  
You take the lot, you take the lot  
Wanna know somethin' honey

Wanna know what I got?  
Lovin' feelin' danger

The dole is gonna catch up now  
So ma daddy did say  
No turning back again now  
Gonna do it my way  
Crime pays more than plenty  
Don't believe what you read  
Peeping through your little window...  
Yes I'll take what I need
