Down here the river, meets the sea
And in the sticky heat I feel you open up to me
Love comes out of nowhere, baby, just like a hurricane
And it feels like rain and it feels like rain

Lying here underneath the stars right next to you
And I'm wondering who you are and how do you do?
How do you do, baby?
Clouds roll in across the moon and the wind howl out
your name
And it feels like rain and it feels like rain

We never going to make that bridge tonight, baby
Across lake Ponchartrain

And it feels like rain and it feels like rain

So batten down the hatch baby and leave your heart up
your sleeve
It looks like we're in for stormy weather, that ain't no
'cause for us to leave
Just lie here in my arms, let it wash away the pain
And it feels like rain and it feels like rain

Feels like rain
It feels, it feels like rain
And it feels like rain
Oh yeah, oh yeah

Feels like rain, yeah
Like rain, rain
You know it feels like rain
Sometimes it feels like rain
It feels like rain
