"My Love Is Real"

Visit "[My Love Is Real](#)" on MotoLyrics.com

My love for you is like, is like a sweet refrain
Real, real true love, is like a burning, burning flame
My love for you will live through storm and rain
My love, my love for you is real.
My love for you, words can never express

My love, my love for you is real.
God, God only knows, that I'll love you, love you best

With only you my love could ever rest
My love for you will live forever
If you love me, love me my darling
My love for you makes me want you near
Forever and a day
Won't you show me in your own sweet way?
Within, within my heart, I really need, need you dear

Sometimes true love can make a, make a man shed
tears
My love for you is real.

Oh, my love, oh my love for you is real.
