Standin' on the corner
Wait on my girl to come by
Yes standin' on the corner
Waitin' on my girl to come by
Yes I can see nobody's face
And I just gonna break down and cry

Well, I know she's out here
On this street somewhere
Yes I know you're out here woman
On this street somewhere
Bye baby now
I found me a new little girl

Yeah, hug me baby and
Hear me call your name
Oh, I know you hear me babe
I keep on callin' your name
Well, I didn't hear the answer babe
And I don't seem to see a dog gone thing

I'll flag me a cab and I'll
Ride around all over town, oh baby
Yes, I'll flag me a cab and I think I'll
Ride around all over town
You know if I don't find you woman I ain't gonna let this
Cab here no more put me down

So it's about four o'clock
In the mornin' and I'm
Startin' to fall asleep
I tell the cab driver I just wanna
Find me somethin' to eat

I say I gotta find my woman
And I know she's somewhere, somewhere
You know I'm gonna ride
I'm gonna ride I say I'm gonna
Ride this ol' yellow cab
