I've got a strange feeling  
I never felt like this before  
Yes, I've got the strangest, strangest feeling baby  
God knows I've never felt like this before  
You know when my left eye gets to jumpin'  
Hmm, I don't know which way to go

When my left eye get to jumpin'  
And my flesh begin to crawl  
I know you got some other mule  
Is kickin' in my stall

I've got the strange, strange, strange  
I never felt like this before  
You know when my left eye get to jumpin'  
God knows I never felt like this before

Have mercy baby  
I hear you baby, play the blues

You know I feel like my baby  
She's got a black cat bone  
'Cause everything I do  
My baby know what's just going on

I've got the strangest, strangest feeling baby  
I've never felt like this before  
You know when my left eye get to jumpin'  
I don't know which way to go
