Double message - Double mind
You've always been the evil kind
The night will come and I will follow
For you ~censored~there's no tomorrow
~censored~you
~censored~ you
You stupid dick I'm gonna kick your bloody ass
I show you how to learn the way your life will pass
There's no way out - You did me wrong
But you're the one - Who has it done

~censored~ you
~censored~ you
Your time will come - I'll get you down
And when it's done - Your soul's my own
You suck your brain - You suck yourself
The time has come - To break your life
fuk u fuk u
