"Third Birth"

The day - of my - third birth - there - comes a - nother -
fucking - day
Through the - shadows - of my - soul - searching - for
an - endless - black hole
Tell me what's the price that you pay
To find - me in - love or - grave - believe - in a - better -
day
Misery - and pain - rules my - tears - the loades - of fun
- are doomed - to - hell
Sweet dreams - bathing - in my - brain - visions - of
lights - lost in - fun
I will - begin - where to - find - demons - of fear - ruling -
me
Towers - dreams - waiting - here - I can't - be strong - I
need - you

This time - I thought - you need - me - but now - I feel -
like lost - in nowhere
