I float inside her womb  
Oh mother, I am coming soon  
Suddenly, fear and dread  
When mother says she wants me dead

Oh how can you do this to me?

Thousands come  
Please don't kill me  
Thousands go  
I want to live  
Day by day  
Can anyone hear me  
The numbers grow  
I want to live

God hears them cry  
We hear the lie  
And we simply look the other way

See no evil  
Hear no evil  
Speak no evil

From a pail with open eyes  
I see the man that I despise  
He looks at me, turns his back  
As my life fades, it fades to black  
And there's no turning back

Thousands come  
Please don't kill me  
Thousands go  
I want to live  
Day by day  
Can anyone hear me  
The numbers grow  
I want to live

God hears them cry  
We hear the lie

And we simply look the other way

See no evil  
Hear no evil  
Speak no evil

(Mommy, can you hear me?  
Mommy, mommy, I'm afraid)

Thousands come  
Please don't kill me  
Thousands go  
I want to live  
Day by day  
Can anyone hear me  
The numbers grow  
All I want is a chance to live

God hears us cry  
You hear the lie  
And you simply look the other way

See no evil  
Hear no evil  
Speak no evil

See no evil  
Hear no evil  
Speak no evil
