The world is turning to night  
Stars are falling  
Heaven's calling  
Hell is alive  
The moon is dark  
And the sun won't give other light  
The end has come

Temptations pulls in your heart  
A burning flame  
Lights the way  
Like a thief in the dark  
Where light is light  
Where black is night  
To break in the dawn  
Where lightning brings  
Angels' wings  
The thunder rolls on

Now the end as come  
Darkness rules the setting sun  
Battle is over and won  
Armageddon

The world is turning to night  
Stars are falling  
Heaven's calling  
Hell is alive  
The moon is dark  
And the sun won't give other light  
The end has come

The shadows dance in the dark  
Celebrate  
The darkest fate  
While the heavens move on  
There is no light  
It's back as night  
A world without dawn  
Now angels scream  
Above the dreams

Of the armageddon

Now the end as come  
Darkness rules the setting sun  
Battle is over and won  
Armageddon  
Armageddon

The world is turning to night  
Stars are falling  
Heaven's calling  
Hell is alive  
The moon is dark  
And the sun won't give other light  
The end has come
