When I think about her, I just get down  
Knowing that she doesn't want me around  
Maybe if she would try, things would work out

But I know that it's useless  
To maintain this state of hopelessness  
'Cause when I see her  
She said she's got better things to do

Masturbation's left me alone  
I can't even talk to myself on the phone  
Maybe if she would try, things would work out

But I know that it's useless  
To think that she'd love me  
'Cause she is a stupid bitch  
And she said she's got better guys to do

My heads spinning around, I can't think about it  
Maybe I'm someone she, she can't understand
