I'm sick of playing all your stupid little games
You're 17 and blonde and screwed up in the brain
Conceited, immature, confused, and naive
You're pretty pretty dumb, and caught up in the scene

And I wasted all my time
Waiting up for you
To make up your mind

[Chorus x2:]

I am sick of stupid girls
I am sick of stupid girls
I am sick of stupid girls

Stop acting like you're sad, I hate to hear you cry

You're like an episode of "Days of our Lives"
If you don't get your way, you'll whine and complain
Superficialistic, please go away!

And I wasted all my time
Waiting up for you
To make up your mind

[Chorus x2]

You're not innocent to me
You're too uppity for me
You're just a stupid girl to me
To me

[Chorus x2]

Stupid girls, girls, girls, girls...
