I have the best idea
It has to do with killing you
You wonder why I wanna do it
Well, I wanna know how to go
Get on out me
I wont leave again
What about the world you told me I could never see
I love you more than I should say wooh
What about the world you told me I could never be
And I wonder where you are
I cant, I can't fight the feeling
I had to play a pick and bones, ya
It has a smile of happiness, tell me
Everyday is too familiar oooh
It is what I become all on my own
People go bad, I guess it's my turn
What about the world you told me I could never see
I love you more than I should say wooh
What about the world you told me I could never be
And I wonder where you are
So tell me why when it feels like I can't move
On the night of this debut
When it feels like I and you on the night of this
Hey you
Hey you
Hey you
Hey you
What about the world you told me I could never see
I love you more than I should say wooh
What about the world you told me I could never be
And I wonder where you are
I cant, I can't fight the feeling
