Everyone is made to break some  
But it's already happened today  
So sing it fast, and sing it with the right tone  
Or end up like another hero dead

Chorus:

We're waiting for answers that nobody knows  
We started to follow so long ago  
Cause I've been waiting  
And I've been waiting  
Waiting for answers that nobody knows

Everyone is made to die some  
And it already happened today  
So kill it fast and kill it while you don't know  
Or end up like another hero dead

Chorus

Everyone is made to break some  
But it's already happened today  
So sing it fast, and sing it with the right tone  
Or end up like another hero dead

Chorus:

We're waiting for answers that nobody knows  
We started to follow so long ago  
Cause I've been waiting  
And I've been waiting  
Waiting for answers that nobody knows

Everyone is made to die some  
And it already happened today  
So kill it fast and kill it while you don't know  
Or end up like another hero dead

Chorus
