Alternative girl

I can't believe I just fell in love with you

Because you look so cool

Some say you're strange

But to me you're just plain beautiful

You shop at the lab, expensive clothing

'Cause the style is just another fad

I love the way you dress

Baggy jeans and a T-shirt showing off your breasts

Alternative girl, you rock my world

Every time I think about you

My head starts spinning around

With your colored hair and your thrift store clothes

You're the most wonderful person that I've ever known

Alternative girl

I love the smell of your petrol oil

Yeah, you smell so good

You smell like rotten food that's overdue

Alternative girl, I'm in love with you

Alternative girl, you rock my world
