Like animals they're marching to die  
To the command of an insane mind  
Without even knowing why  
They're marching towards the battlefield  
Holy purpose or pure madness?

Welcome to the hideousness show  
This is the circus of disgust and pain  
Welcome to the war zone  
This is a paradise of shit and blood

Like animals... they died  
To the command of an insane mind  
Without even knowing why  
They played a role to the scene  
Of the hideousness show.
