Without sight and hearing  
Only with the sence of touch  
Illusory affection they sought  
Far away from truth's lucid eye

A cold hand of help  
Morbid state of habit  
A matter of principle  
Can you refuse?  
Who the fuck are you?

King of logic  
In the land of the damned  
Obsessed with the dream  
Of life after death...  
...and hope

King of logic  
In the land of the damned  
Obsessed with the dream  
Of life after death...  
...and hope

For some quality time  
Residing in concrete cells  
Who are we to judge?  
Who are you to question?
