Prepare a face to meet the faces that you meet
Prepare a face to meet
Murder, question, create, murder, question, take

Whisper sweet nothings after sweet nothing
Make this itching stop the game-you win

Woah, you're addicted to disco baby
I laughed so hard, I vomit the night away
Heart stop promises
I'll take ice with mine and extra for the lady

Dressed up every option it looks fine
There'll be nothing unexpected on the roads tonight
Dressed up every option it looks fine
Night time always bring a shine out

From these tired lights

This pane of glass will shatter to reveal
No more harsh coarse abstract fiend

Queue for your change of face
Woah, at the bar they come and go
Smear'd shit-ugly mask
Reparation, retrieve from rejection
Pebbledashed porcelain

This pane of glass will shatter to reveal
No more harsh coarse abstract fiend

At the bar-come and go and go big-spender, she's
wetter
At the bar, the women come and go
All blessings on parade for the show
