Butterfly precedes a broad and she's big carier of  
death

I'm selling small - time s... so I can buy some bread  
horse is eating horse, rain beats against my butt  
a spy is in the window, street cars suck  
Pat on me my lonely back, pinch my pink baby - ass  
wake me with a 3-ton clock, I can't believe he's really  
here now

The bastard grinds, sucks so sweetly,  
how high he flies, he sucked out my spine

Balbinattor Edzy

An ugly old - fart's begging, I'm ashamed to give him  
change

booze puts my lights out, with my boot I wake a snake,  
the witch has a pink pussy, a black stone is healing me

the cab drivers feels the heat, at eleven we will meet.

Pat on me my lonely back, pinch my pink baby - ass  
wake me with a 3-ton clock, I can't believe he's really  
here now

This bastard grinds, sucks so sweetly,  
how high he flies, he sucked out my spine

Balbinattor Edzy

Brain's oming apart at the seams  
this cheap slut won't leave me be, a white rubber,  
maybe pink?

Batman! Howya doin' brother, I can't stand smoking  
grass

Balbinattor's on the loose, rain beats against my ass!!

Bastard grinds, sucks so sweetly,  
how high he flies, he sucked out my spine

Balbinattor Edzy
